The Charter School Governors

We call on you, the governors of The Charter School, to ensure that your admissions policy is properly applied.

The school is oversubscribed. Priority is given to children living nearest the school measured along safe walking routes. Some years ago a short section of Wanley Road was pedestrianised to improve road safety. The Charter School does not include the pedestrianised section of Wanley Road as a safe route to school.

The school wrongly calculates the distance from home to school by sending the children a longer way round on the main road instead of using Wanley Road.

Before allocating places for 2012, we ask that you, the governors of The Charter School, take responsibility for the admissions procedure and determine to include Wanley Road as a safe walking route to school.
